

Team ID	SWTID-2026-5870
Project Name	Optimizing User, Group, and Role Management with Access Control and Workflows

IDEATION PHASE

Project Title

Optimising User, Group and Role Management with Access Control and Workflows

2.1 Customer Problem Statement Template:

Organizations often face difficulties in managing users, groups, roles, and access permissions manually. As the number of employees and departments grows, manual administration becomes time-consuming, error-prone, and difficult to maintain. These challenges can reduce productivity, increase security risks, and make access management inefficient.

Some common problems include:

- Manual creation and management of user accounts.
- Incorrect or duplicate role assignments.
- Unauthorized access to sensitive information.
- Delays in approval workflows.
- Lack of centralized user and group management.
- Difficulty in tracking user permissions and activities.
- Increased administrative workload.
- Inconsistent access control policies across departments.

2.2 Empathy Map Canvas

SAYS

Need secure access.

Want quick approvals.

Easy user management.

THINKS

Access should be safe.

Roles must be accurate.

Workflow should be automated.

DOES

Requests user access.

Assigns users and roles.

Approves access requests.

FEELS

Frustrated by delays.

Worried about security.

Satisfied with automation.

Pains

Manual process

Unauthorized access

Approval delays

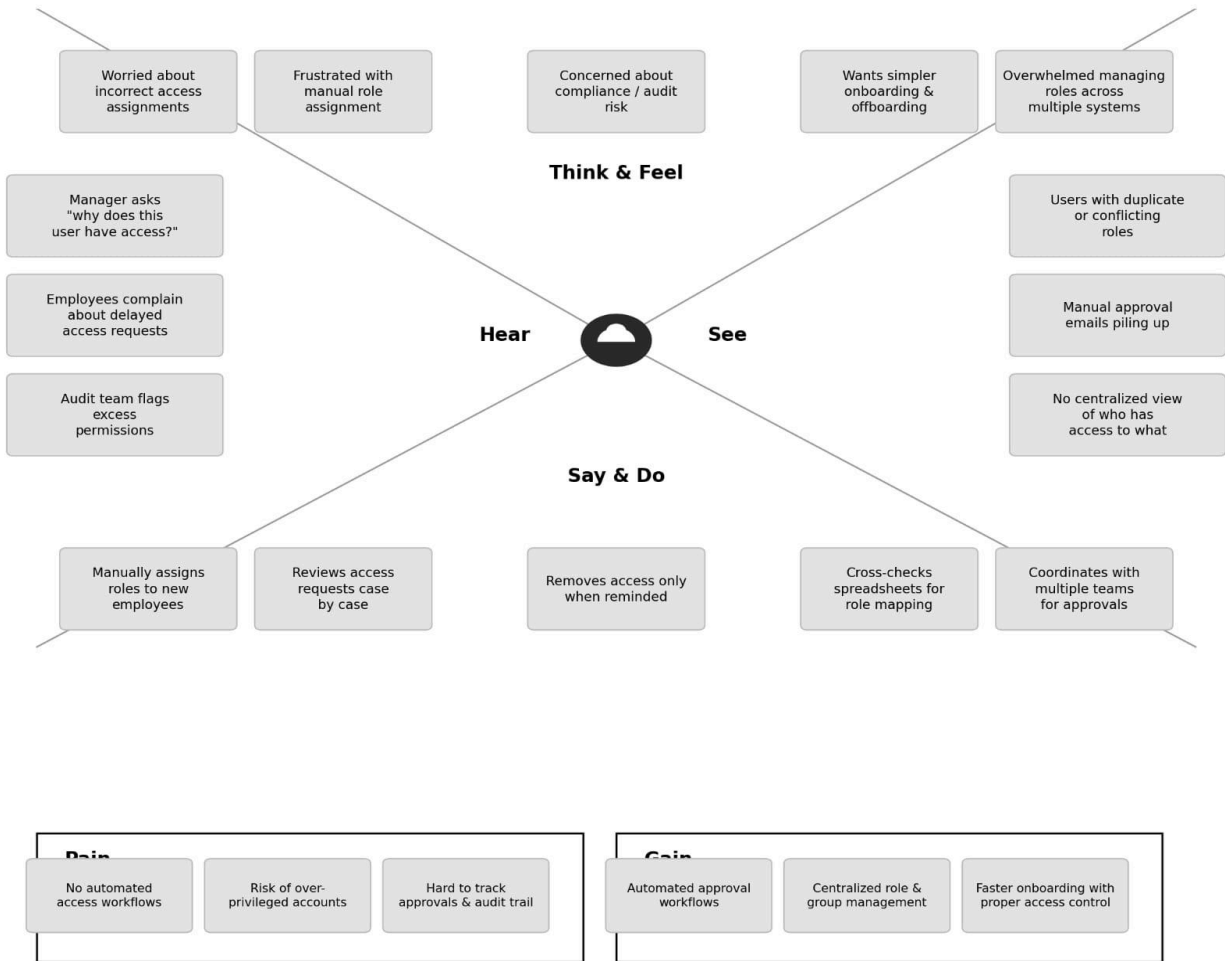

Duplicate roles

Gains

Automated workflows

Secure access control

Faster provisioning

2.3 Brainstorming

Problem

Manual user management

Incorrect role assignment

Approval delays

Unauthorized access

Ideas

Implement Role-Based Access Control (RBAC)

Automate approval workflows

Create user groups for easy management

Apply Access Control Lists (ACLs)

Send email notifications for approvals

Solution

Secure access management

Faster approval process

Reduced manual effort

Improved security

Better user experience

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

🕒 10 minutes to prepare
🕒 1 hour to collaborate
👥 2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a lively and productive session.

Open article →

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

Key rules of brainstorming

To run an excellent and productive session

Stay in topic.

Encourage wild ideas.

Defer judgment.

Listen to others.

Go for volume.

If possible, be visual.

storm

down any ideas that come to mind
address your problem statement.

minutes

tip
You can select multiple notes
and hit the pencil icon to
select color to differentiate.

n 1

1. What is the problem?
2. What are the goals?
3. What are the constraints?

Person 2

1. What is the problem?
2. What are the goals?
3. What are the constraints?

Person 3

1. What is the problem?
2. What are the goals?
3. What are the constraints?

Person 4

1. What is the problem?
2. What are the goals?
3. What are the constraints?

n 5

1. What is the problem?
2. What are the goals?
3. What are the constraints?

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

tip
For customers to help to make
your ideas more concrete, ask
them to give you feedback
on your ideas.

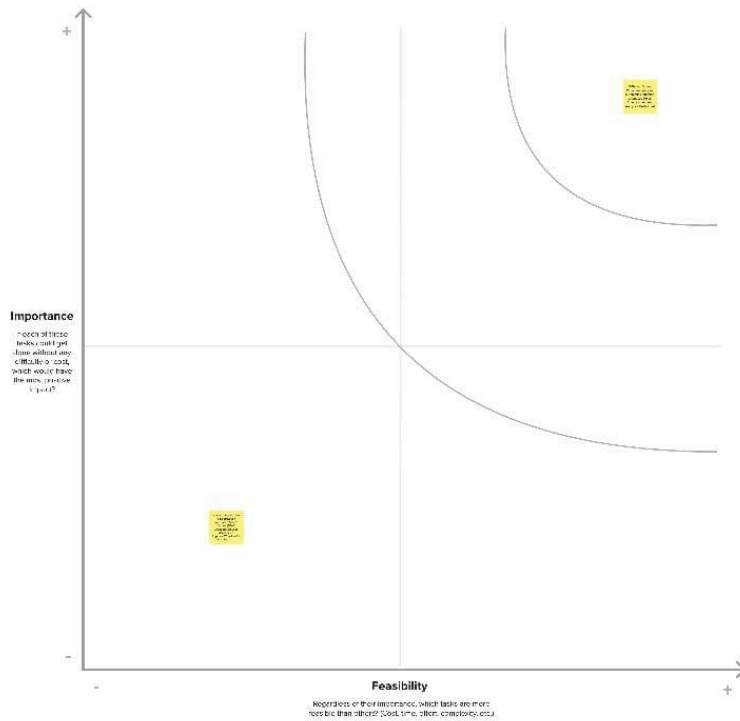

1. What is the problem?
2. What are the goals?
3. What are the constraints?

1. What is the problem?

3. What are the constraints?

Prioritize

Ⓢ 20 minutos

TIP
Perficient points can use that cursor to point at where sticky notes should go on the grid. The facilitator can also use the grid by using the enter pointer holding the H key on the keyboard.

After you collaborate

Quick add-ons

A Share the mural

Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

 Export the mural

Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward
